FRONTEND DEVELOPER

Frontend Developer committed to leveraging technology to make a positive impact. Skilled in building scalable web applications using Python, JavaScript, and various databases. Adept at collaborating with teams to deliver high-quality solutions.

TECHNICAL SKILLS

- **Programming Languages & Frameworks:** Python (Flask), JavaScript (React,Next.js), C, Java, SQL
- **Databases:** SQL (SQLite, PostgreSQL), MongoDB
- **Web Technologies:** HTML/CSS, RESTful APIs, Angular
- **Tools:** Git

TECHNICAL PROJECTS

TOMATO - [Live demo](#) [Github link](#)

- Created a fully functional and responsive website for Tomato Hotel using React, MongoDB, and express, ensuring cross-browser compatibility and a seamless user experience.
- The enhanced online presence and user-friendly interface contributed to a 20% increase in revenue from online bookings within the first quarter post-launch.

FARMART - [Live demo](#) [Github link](#)

- I worked with three Individuals to develop an e-commerce website called FARMART which enables farmers to sell their products.
- Implemented the Daraja Mpesa API, enabling seamless mobile payment processing and reducing transaction time by 40%, resulting in a 25% increase in customer satisfaction and retention.
- Utilized React for the frontend making it user friendly and Python for the backend.
- Implemented PostgreSQL for database management and styled the web app using Tailwind CSS.

CRYPTO-TRACKER - [Live demo](#) [Github link](#)

- Developed a crypto-tracker site which tracks the prices of various crypto-currencies
- Utilised React and css making the site user friendly
- Fetched the live crypto data from the gecko api, which is live and 95% accurate.

EXPERIENCE

CodSoft-Intern

India, Remote
03/2024 - 04/2024

- Participated in all stages of the software development lifecycle, from requirements gathering and design to development, testing, and deployment.
- Assisted in debugging and troubleshooting issues, contributing to the overall improvement of software quality and performance.

EDUCATION

Moringa School Nanodegree Software Engineering

Nairobi, Kenya
09/2023-08/2024

- Acquired comprehensive skills in web development, covering frontend technologies such as HTML, CSS, JavaScript, and React, as well as backend technologies like Node.js, Express, and MongoDB.
- Engaged in hands-on projects to develop practical experience in building scalable web applications, including tasks like creating responsive user interfaces, implementing RESTful APIs, and managing databases.
- Collaborated with peers in team-based projects, honing skills in version control (Git), project management, and agile methodologies.

CERIFICATIONS

PowerLearn Project Full Stack Development

Nairobi,Kenya
01/2024 - 04/2024

- Acquired skills in software development while engaging in hands-on projects.
- Improved soft skills by collaborating with colleagues.
- Learned programming languages: Python, JavaScript, Flutter.
